

Company Profile 2015

The Magic Begins Here

Monster City Studios, Inc. is a full-service themed environment design and fabrication company producing award-winning creations that are immersive, experiential, and always with the guest experience at the forefront of our creative mission.

We bring stories to life—from blue sky concept to completed project. We can take your vision and interpret it into an imaginative, visually-stunning design with our creative planners and managers serving as an extension of your team in a collaborative manner to deliver a project that is on time, and on budget.

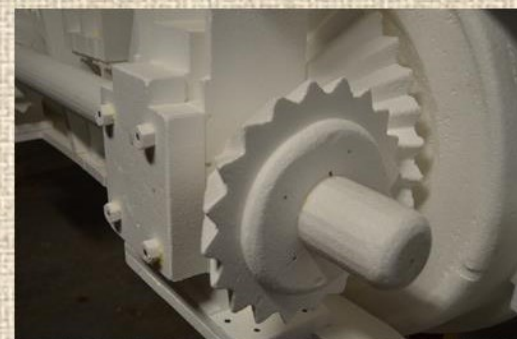

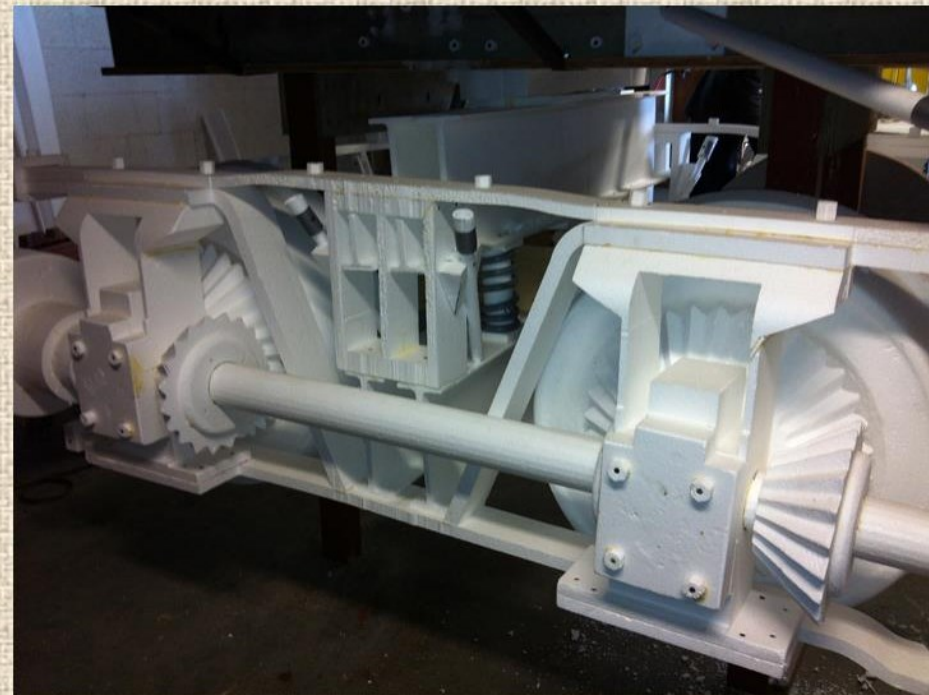

A visionary team of artists, fabricators; sculptors, technicians and skilled craftspeople bring imaginative, turn-key specialty fabrications to life that are fun, innovative and memorable.

We're passionate about what we do—from the creative team and administrative staff, to the fabrication and installation departments—and are committed to delivering world-class projects that are designed to engage and entertain.

Creating a memorable experience has to begin somewhere.

An idea. A need. A desire.

There are many ways to tell a story. We start with a visual storytelling concept and continue to refine it through a series of design review meetings with the client. We can take your vision, your story, and interpret them into a unique and highly immersive experience that captures an audience's attention in a memorable way. It's your story. We help you tell it.
